

Showing Pathway to Self-Determination

Our Story

We recognize the shortfalls in the existing consultation process

Addressing Existing Challenges:

- Scattered Emails
- Lack of Deadline Tracing
- Limited Visibility Across Teams
- Inconsistent Reporting

What We Understood Through a Digital Solution:

- Need to enter paperless format to preserve knowledge passed down by elders.
- Provide documentation that can derive economic benefit to the nation that is tracked.
- Internet coverage has reached remote areas and has become faster.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

The Time Has Come

We recognize the shortfalls in the existing consultation process

- Existing Aboriginal and treaty rights of First Nations have been recognized and affirmed by Section 35 of the Constitution Act, 1982 (Canada).
- The Federal and Provincial Governments are actively supporting First Nations and are insisting First Nations have meaningful participation in economic development in the Provinces.
- First Nations have a say in economic development and when managed properly, it goes together with the self-direction, self-sustainability, self-governance and the preservation of language and culture.
- Economic Development opportunities are constantly arising and are often complex in nature.

Our Principles

Based on existing experience, we have seen the current pitfalls in this process.

Data Sovereignty and Security – Built with the understanding that Indigenous data belongs to the Indigenous communities.

Strengthening Internal Capacity – Designed in building strong internal consultation systems by providing structured workflows, centralized information, and clear task management.

Flexible and Community-Driven – Understanding that each nation operates its own priorities, governance structure, allowing nations to work from anywhere.

Transparency and Accountability – Identifying a clear workflow that shows records of all interactions to promote accountability and ensure commitments are fulfilled in a timely manner.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Challenges We Face

Manage the Future while Honouring the Past

Multifaceted Workflow:

Projects coming through multiple doors such as fax, email, paper, or phone calls can create additional delays.

Physical constraints of data storage:

Existing systems of retaining sacred knowledge and land use data in cabinets or Elder memories can be lost.

Reactive instead of Proactive:

Current processes can feel reactive, rushed, and fragmented.

Inconsistent or Lack of Reporting:

Lack of proper templates may lead to missing important information and have data lost or scattered.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Vision Going Forward

Stewardship in a Secure Place:

Creation of a Trusted Space

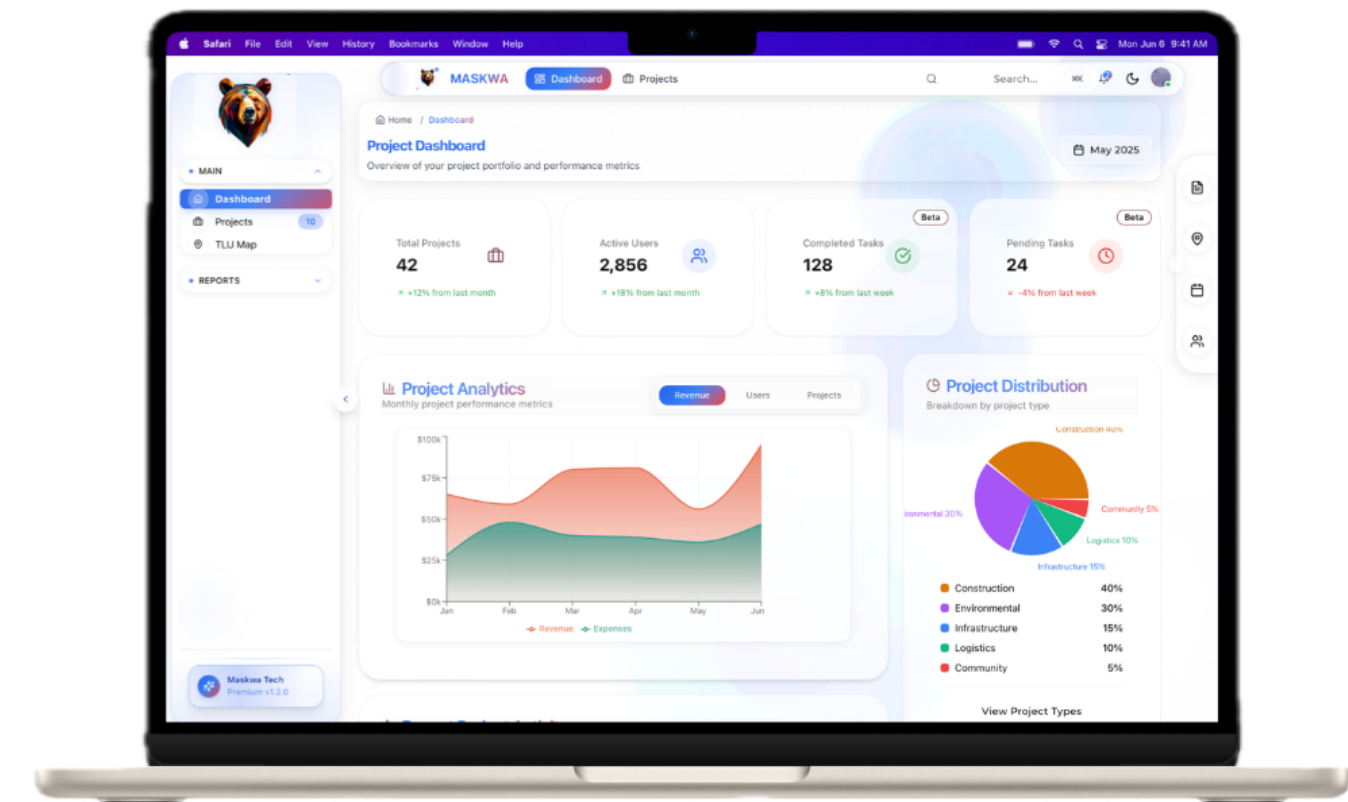

Recognize the need for a system built by Nations for Nations.

Our Knowledge Guides the Process

Based on existing information, how can a Nation dictate future consultations going forward to make it easier and simpler?

Setting the Pace

By setting a level of transparency by showing checklists of actions for both parties it can ensure decisions are made with clarity and not under pressure.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Introducing a Community

Welcome to Your Digital Hub

Built With Us

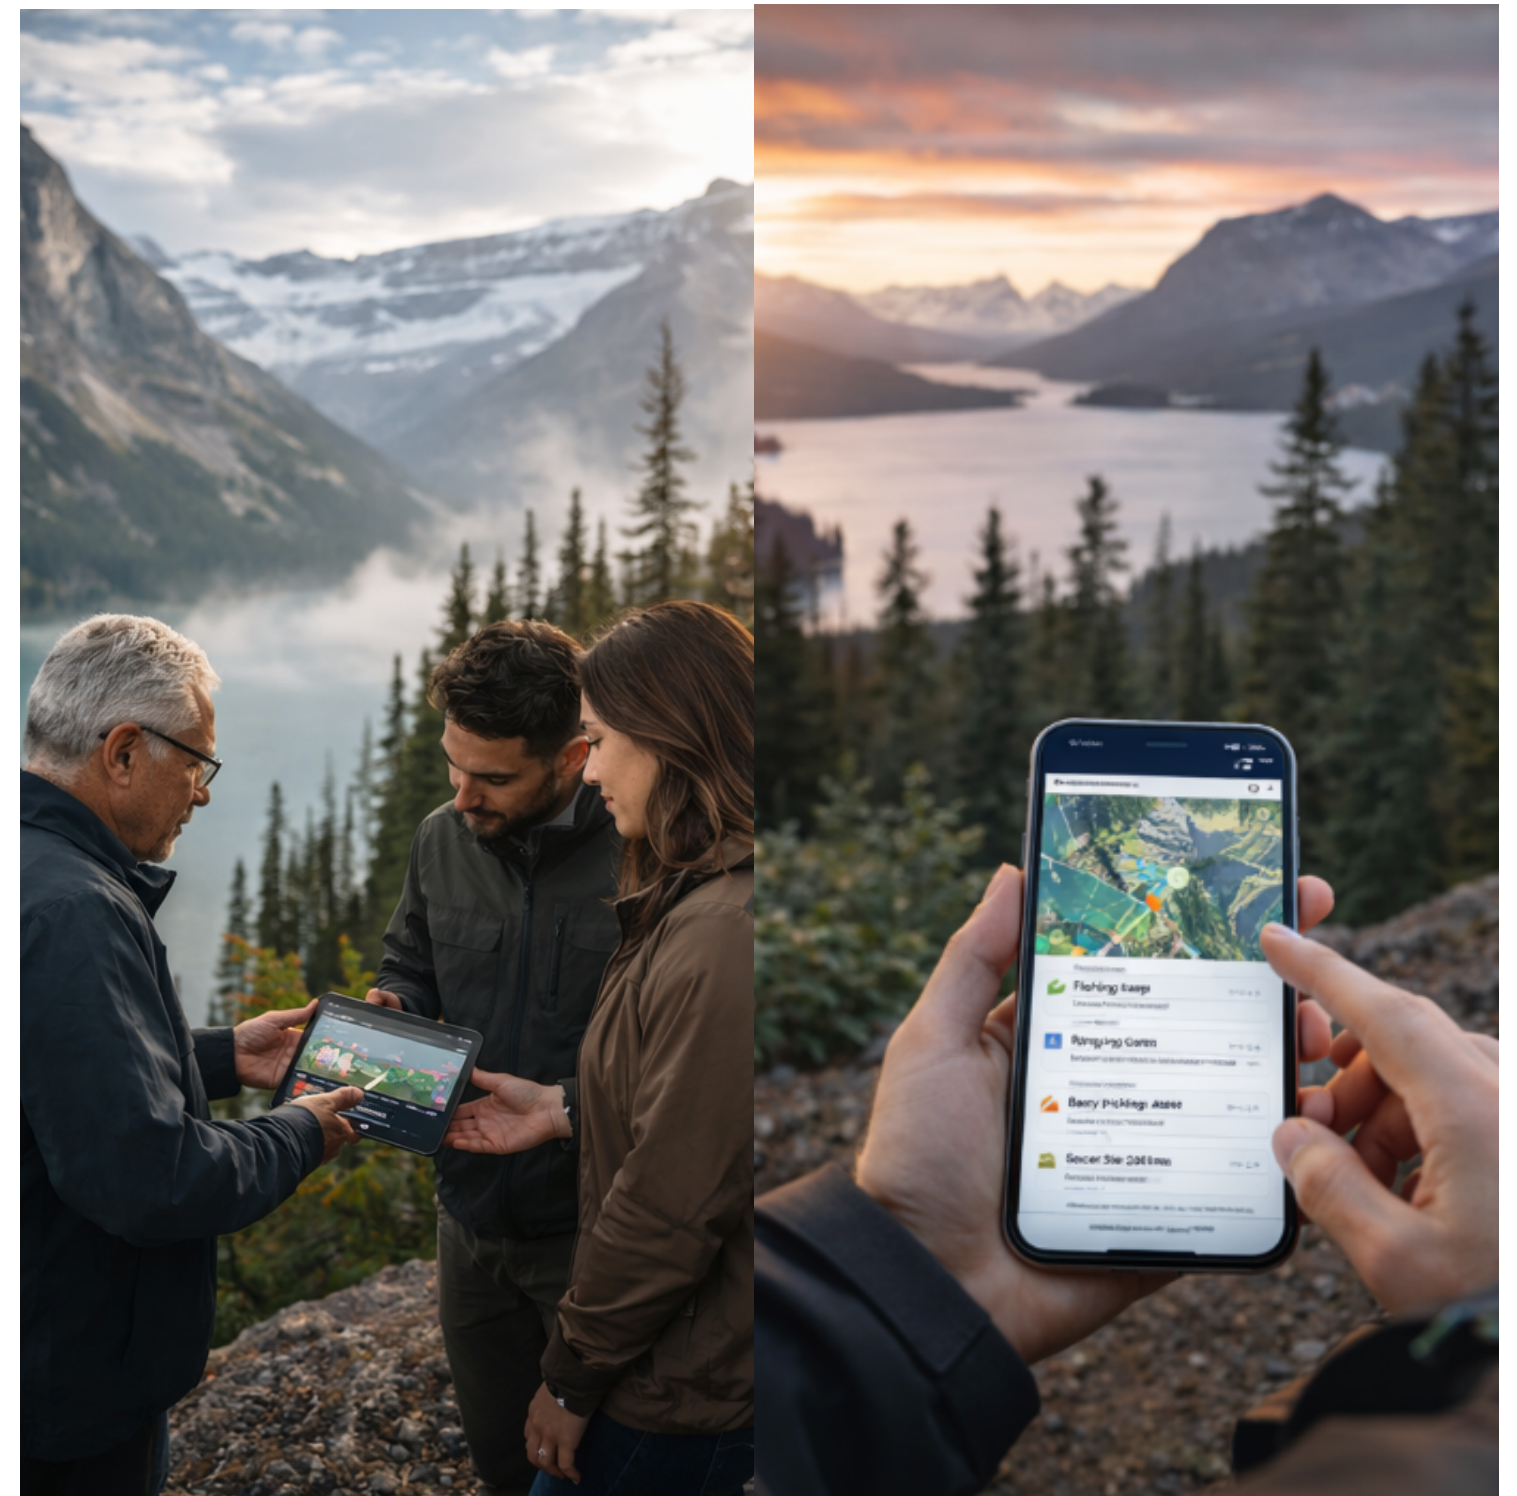

Be part of a *cloud-based* platform for secure data storage and communicate with Indigenous Partners.

Your Rules, Your Process

Creating a governance model industry adapts to and not the other way around.

One Source of Truth

Central hub for projects, conversations, knowledge – lives here, under your control. You set the permissions.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Heart of It: Data Sovereignty

Recognizing New Importance of Data Security and Control

You Own It

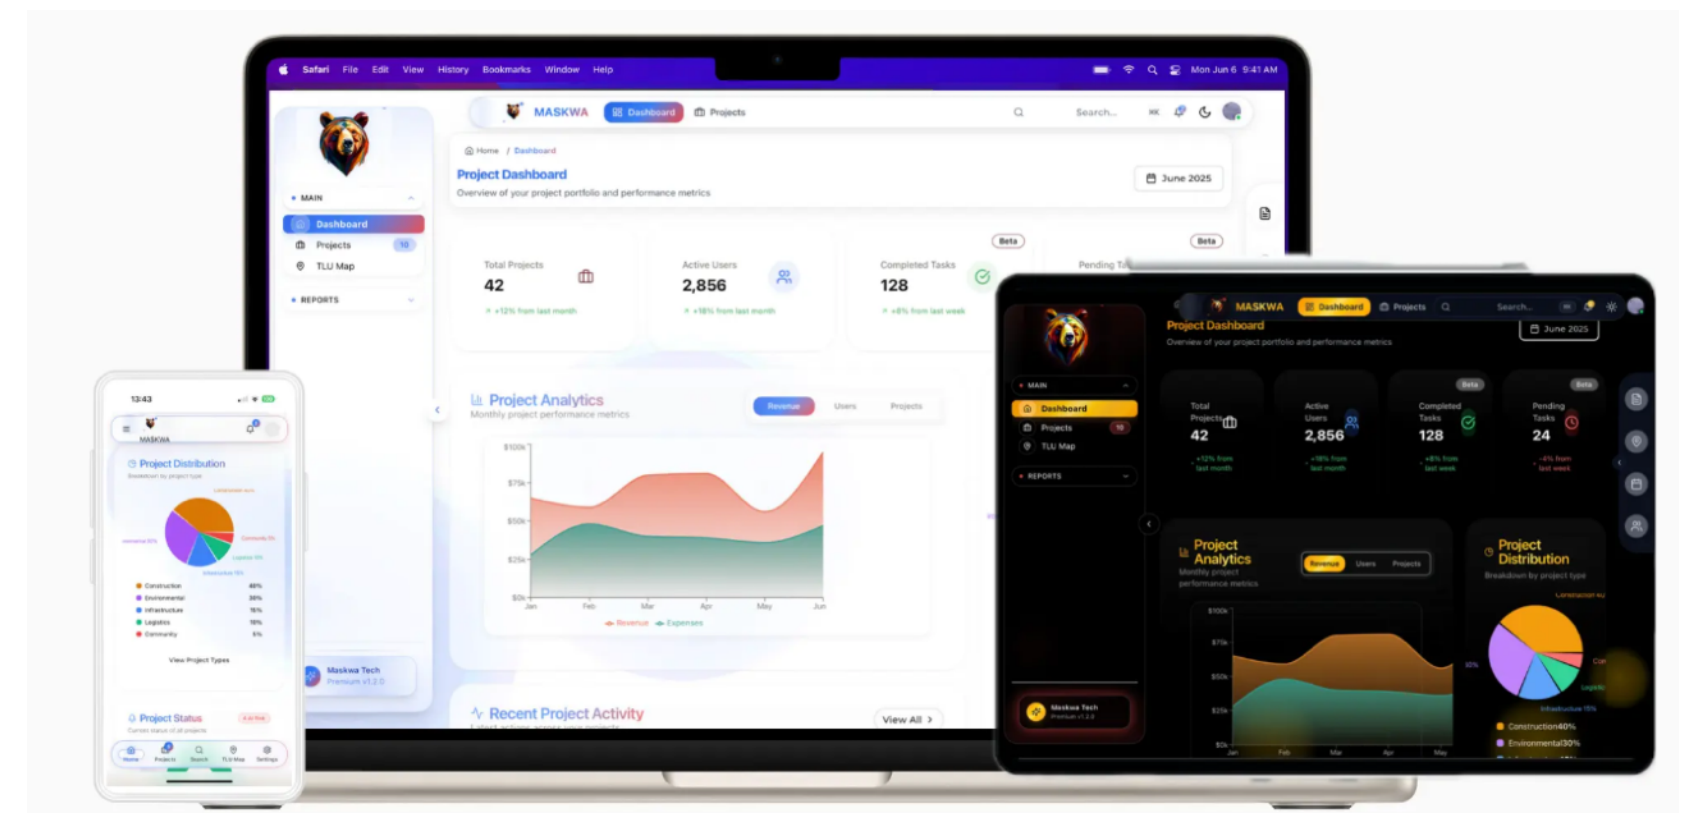

Every map, every note, and every piece of Traditional Land Use (TLU) data entered is your community's sovereign asset.

You Control Access

You decide who sees what, and when. It never leaves your control.

Preserve for Generations

Securely store and organize knowledge so it strengthens your people for the future generations.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

See the Full Story on the Land

Reshaping methods of engagement with impacted communities

Layered Projects

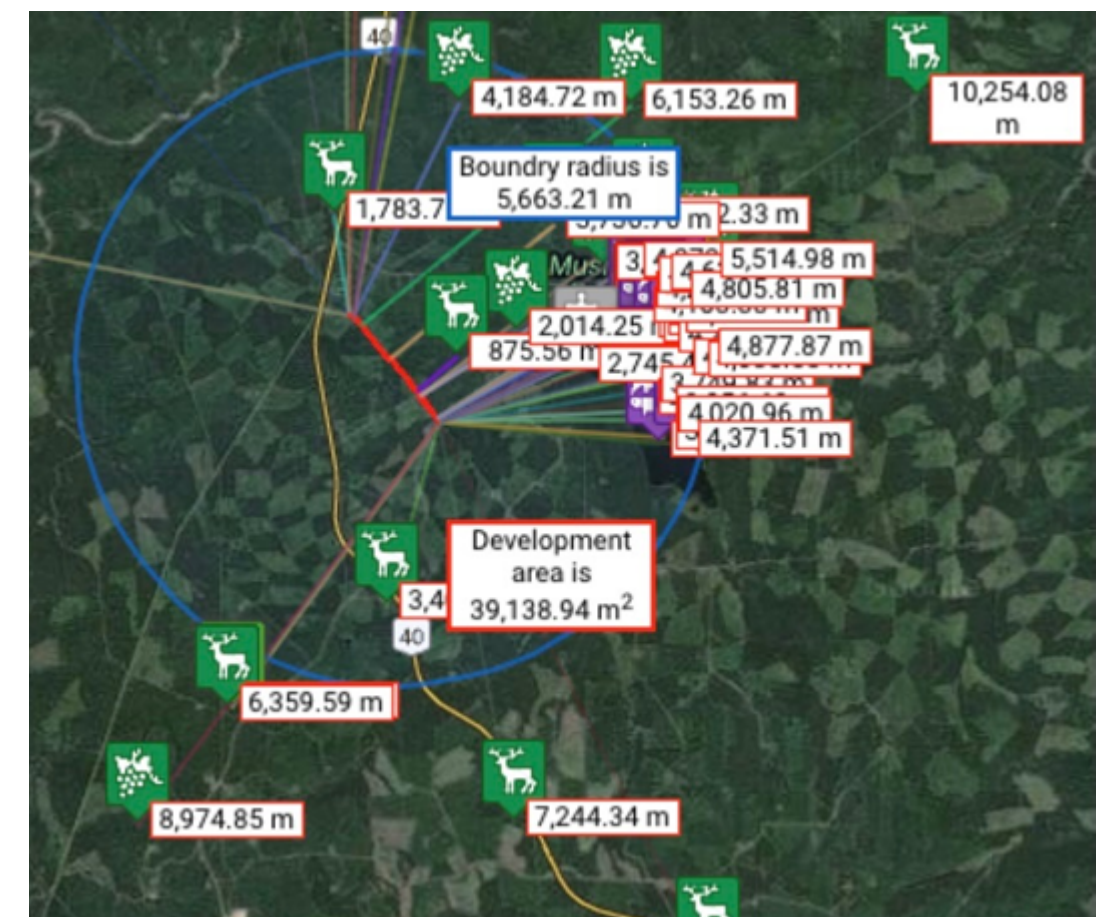

Instantly see a new project proposal overlaid on sacred sites, traplines, and harvesting areas.

Speak with Visual Authority

Use clear, custom maps to guide consultations and assert your rights and interests.

Add to Living Record

Easily document new knowledge directly onto the map to build your legacy.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Clear, United Path for Every Project

From First Contact to Final Decision – On Your Terms

One Front Door

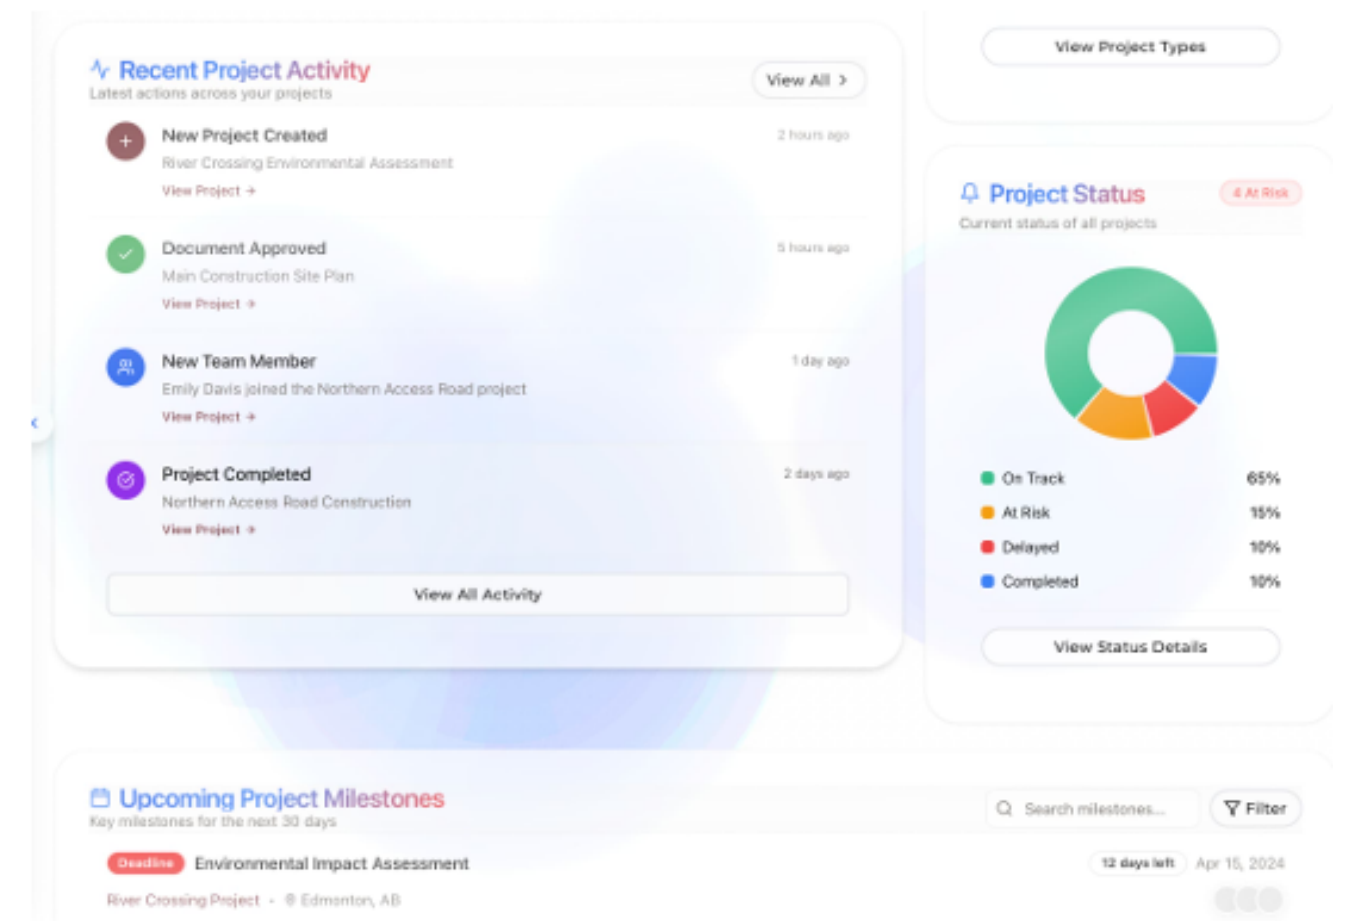

All projects enter through a single, organized hub. No more chasing papers or chance of anything getting lost.

Transparent Tracking

Watch a project move through your own review and follow predetermined steps in the approval process.

Your Timeline, Your Process

You manage the pace, ensuring proper consultation and reflection.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Financial Clarity & Control

Keeping Stewardship Financially Sound and Accountable

Budget with Goals

Create clear, itemized budgets tied directly to your community's priorities and conditions.

Track in Real-Time

Know where funds stand at any moment, directly within the project's timeline.

Informed Leadership

Chief & Council get clear alerts and summaries to make confident financial decisions.

The screenshot displays the MASKWA software interface. On the left is a navigation sidebar with a bear logo and menu items: MAIN, Dashboard, Projects (10), TLU Map, and REPORTS. The main content area is titled 'Review project information' and includes a 'Review Progress' section with 'Approved' (0 items), 'Changes Requested' (0 items), and 'Pending Review' (10 items). Below this is a 'Required Documents' list: Environmental Assessment, Land Survey, Construction Permits, Project Proposal, and Budget Breakdown. The right-hand section, 'Detailed Budget', shows 'Project Details' for 'Maskwa Tech Inc.' (123 Innovation Drive, Toronto, ON) and a 'Budget Invoice' for 'Company C' dated 09/06/2025. The invoice includes GST/HST No. B64864CDF543 and Invoice No. MSK-0001. An 'Expenses' table lists three items: 1. Consultation (Work, \$5,000), 2. Site Inspection (Elders 3, \$15,000), and 3. TLU Collection (29, \$2,000). A summary at the bottom right shows Project Budget: \$22,000, Platform Fee @20%: \$4,400, GST/HST @5%: \$1,100, and Total Due: \$27,500. A 'Print as PDF' button is present. A warning banner at the bottom states: 'Project will not be approved or completed until payment is received and verified.' with instructions on payment verification.

#	Expense Type	Description	Amount (CAD)
1	Consultation	Work	\$5,000
2	Site Inspection	Elders 3	\$15,000
3	TLU Collection	29	\$2,000

Project Budget: \$22,000
Platform Fee @20%: \$4,400
GST/HST @5%: \$1,100
Total Due: \$27,500

Project will not be approved or completed until payment is received and verified.

- After making the payment, users must upload:
 - Cheque number (if applicable)
 - Payment date
 - Receipt/proof of payment
- After approval, a form will appear to upload and review the receipt.
- Once confirmed, the receipt will be sent to us for review.

Stronger Together

Transparency Builds Trust

End the Telephone Game

Everyone works from the same updated information.

Having a Complete History

Every comment, decision, and change is respectfully logged – creating a permanent record of your joint activities.

Unite Leadership & Membership

Foster trust through visibility, aligned with your governance.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Designed for Community Structure

Secure access designed for how you work

Knowledge Keepers & Elders

Securely contribute and access cultural data.

Chief & Council

High-level oversight and decision dashboard.

Land & Resources Staff

Powerful tools for day-to-day management.

Community Members

Transparent views into processes that matter to them.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.

Journey Ahead

Reshaping methods of engagement with impacted communities

Making the Commitment to:

Sovereignty Over Your
Information and Your
Future

Strength through unified,
clear communication.

Stewardship guided by your
laws and knowledge.

Maskwa Tech bridges tradition and innovation, ensuring projects align with community priorities.
